Address: Radničko naselje Kurovica 13, 43226, Veliko Trojstvo, Croatia (Home)

ABOUT ME

Hey, I'm Filip—a 27-year-old software developer with a deep passion for building and creating. With a bachelor's degree in Telematics, I thrive on solving complex problems and crafting software that's both efficient and scalable.

I've worked on a variety of projects, from developing an e-commerce platform to building infrastructure and a development kit for internal tooling. Right now, I'm focused on frontend development with Next.js, leveraging server-side rendering to create high-performance applications.

But my curiosity doesn't stop there—on the side, I explore NestJS (Fastify & Express) and enjoy architecting software from the ground up, often with minimal dependencies to truly understand every layer of the stack. Lately, I've also been diving into Go, always looking to expand my skill set and push the limits of what I can build.

And when I'm not coding, you'll probably find me with a guitar in hand—I've been playing for nearly 17 years, and music is just another way I channel creativity.

I'm all about continuous learning, experimenting with new technologies, and pushing the boundaries of what's possible in software development. Let's connect and build something awesome!

WORK EXPERIENCE

05/12/2021 – 06/01/2022 Rijeka, Croatia

PROGRAMMER, MAINTAINER STUDENTSKI CENTAR RIJEKA

- Developed simple app to store all devices user manuals and display them on frontend
- Developed and maintained new info board
- Maintained existing infrastructure

This job was student job

18/08/2022 – CURRENT Čakovec, Croatia

SOFTWARE DEVELOPERS TRIA D.O.O

- Developed and maintained an e-commerce application for 6 months, collaborating closely with e-commerce customers to ensure a seamless user experience and address their specific needs.
- Transitioned to focus on internal tooling, spearheading the development of a new backend framework to streamline and standardize the architecture for future projects.
- Worked with a variety of technologies, primarily using JavaScript and TypeScript, to build robust, scalable applications and internal tools.
- Contributed to improving internal processes and enhancing development efficiency through custom solutions.
- Developed a video learning platform with focus on video transcoding and showing on Frontend

EDUCATION AND TRAINING

2011 – 2016 Bjelovar, Croatia

ELEKTROTEHNIČAR Tehnička škola, Bjelovar

Address 51000, Rijeka, Croatia

LANGUAGE SKILLS

Mother tongue(s): **HRVATSKI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Microsoft Office | Microsoft Word | Microsoft Excel | Microsoft Powerpoint | Basic knowledge in programming in C++ | Basic knowledge of software development in Python programming language. | Javascript, JQuery, Gulp.js (Skillful) | Good listener and communicator | Reliability | Written and Verbal skills | Motivated | Analytical skills | Decision-making | Internet user | Google Drive | Creativity | Critical thinking | Research and analytical skills | Outlook | Python Backend Developer | Backend development | Google Docs | React Hooks / React Bootstrap / React Router /React Hooks | React ecosystem: ReactJS, React Router, Redux, Typescript | Nextjs | JavaScript ES6+ JQuery React (Redux Hooks Context NextJS Router Thunk) | Unix - Linux (Optimal Knowledge) | Linux system programming | Linux, user level;
